

DMM Dragon size 4 and 5 Recall

15th of Feb 2011 - DMM has received information from a U.S retailer regarding size 5 (Blue) Dragon Cams. They have found cracks on the aluminium axle boss on two of the Dragon Cam size 5s they have in stock.

For the safety of all of our customers DMM are issuing an immediate recall for all Dragon Cams size 4 and 5 with turned axle bosses (see images below). At present there is no evidence that suggests the size 4 Dragon Cams are affected. However, we feel it appropriate to include them in the recall due to similarities in construction.

Our first and foremost priority is the safety of the climbing community.

What to do: Customers should immediately stop using the DMM Dragon #4 & #5 and return the product to the place of purchase or post to:

Expedition Equipment
Unit 31/28 Barcoo Street
Roseville NSW 2069
